Few of our recent projects

From medium to large, both residential and commercial project in helping to meet Kingdom's demand for quality building materials - RedX's major projects show our expertise in action.

An overview of our current projects in major:

- A 14 Storey Building in Juffair.
- Corporate Head office of a leading group, Seef.
- Buildings for Ministry of Housing, Salmabad
- Five Storey Show room Complex, Sanad
- Five Buildings belongs to Ministry of Housing, Salmabad
- Riffa View Mall, Riffa.
- 100 Villas for Ministry of Housing, Safrah.
- Five Storey Building, Zallaq
- 250 posh houses in Zaed Town.
- Police Acadamy, Jau.
- Bahrain Islamic Bank, Arad.
- 100 Villas for Bahrain Defence Force (BDF).

RedX is an approved supplier for:

- Ministry of Works.
- Ministry of Housing.
- Electricity and Water Authority.
- Tatweer
- Bana Gas
- Bapco.

Company Profile

RedX Industries is a leading manufacturer of building materials including, Precast Elements (Hollow Core Slabs etc.), Concrete Blocks (Hollow, Insulated or Part), Interlock Pavers, Concrete Kerbs & Flags, Ready-Mix Concrete, Crusher Products, Washed Sand, Artificial Stones and Asphalt products. Headquartered in the Kingdom of Bahrain RedX has approximately 800 employees and three large scale manufacturing facilities within the Kingdom. It is having large distribution fleet throughout the Kingdom and Eastern Province of Saudi Arabia.

RedX has established a vertically integrated business model that provides processing, storage, distribution and customized logistic solutions.

RedX specialized in supporting large scale civil construction projects by leveraging new age technologies. In keeping the world class management processes, and also among first few companies in Bahrain to implement the advance software to adhere quality in each of its products.

Precast Products

Operating as one of the largest and the most efficient Precast Concrete facilities in the Kingdom. We design and manufacture standard and custom precast concrete products to meet large-scale infrastructure demands for highway construction, retaining walls, electric and gas utility, telecommunications, water, on-site wastewater, and sewage applications.

- Foundations.
- Pipe Supports.
- Road Barriers.
- Wheel Stoppers.
- Cable Tiles.
- Concrete Manholes.
- Boundary Walls.
- Precast Panels.
- Column Beams.
- Stairs and Landings.
- Solid Slabs.
- Insulated Wall Panels.
- Bearing Walls.
- Wall Claddings.
- Car Shades.
- Manholes.
- Plant Boxes.
- Bleachers.
- Benches.
- Bollards

Hollow Core Slabs

- 150 mm
- 200 mm
- 265 mm
- 400 mm
- 160 mm boundary wall
- 170 mm
- 220 mm
- 320 mm
- 500 mm

Concrete Blocks

The block and paving division operates a high capacity, automated and computerised plant prevailing from MASA, Germany. This cutting-edge technology shoved RedX into one of the largest producers of masonry blocks and pavers with a production capacity of 80,000 blocks per day. We're equipped with the contemporary machines and qualified staff to produce a variety of blocks in the Kingdom.

Hollow Core Masonry Blocks

- 4 inch Blocks.
- 6 inch Blocks.
- 8 inch Blocks.
- 10 inch Blocks.
- 12 inch Blocks.

Light Weight Hollow Core Blocks

- 4 inch Blocks.
- 6 inch Blocks.
- 8 inch Blocks.

Special Shape Hollow Core Blocks

- 6 inch U Blocks.
- 8 inch U Blocks.
- Hourdi Block

Interlock Paving

RedX produces various paver profiles in a wide array of colours. With a state-of-the-art Masa machinery and a measure of ingenuity we are creating a smoother, stronger, more beautiful pavers.

RedX is also well known in producing Paving Stones, as it produces colour throughout the stone and our improved processes creates more vibrant color than ever before.

- Rectangular Paver
- Quadro Paver
- Uni Paver (Zig-Zag Shape)
- 3D Paver
- Cobble Stone
- Paving Slab
- Uni Decor
- Fan Type Paver
- Grass Grid
- Combo Paver
- Retro Paver
- Postumia Paver

Ready Mix Concrete

RedX operates three contemporary twin shaft RMC plants ranging from 120 CuM/hr to 140 CuM/hr capacities. These state-of-the-art machines from Germany designed with quality and temperature control systems.

This plants are positioned in a very strategic locations, one in Hidd another in Alba, to serve every corner of the Kingdom on ease.

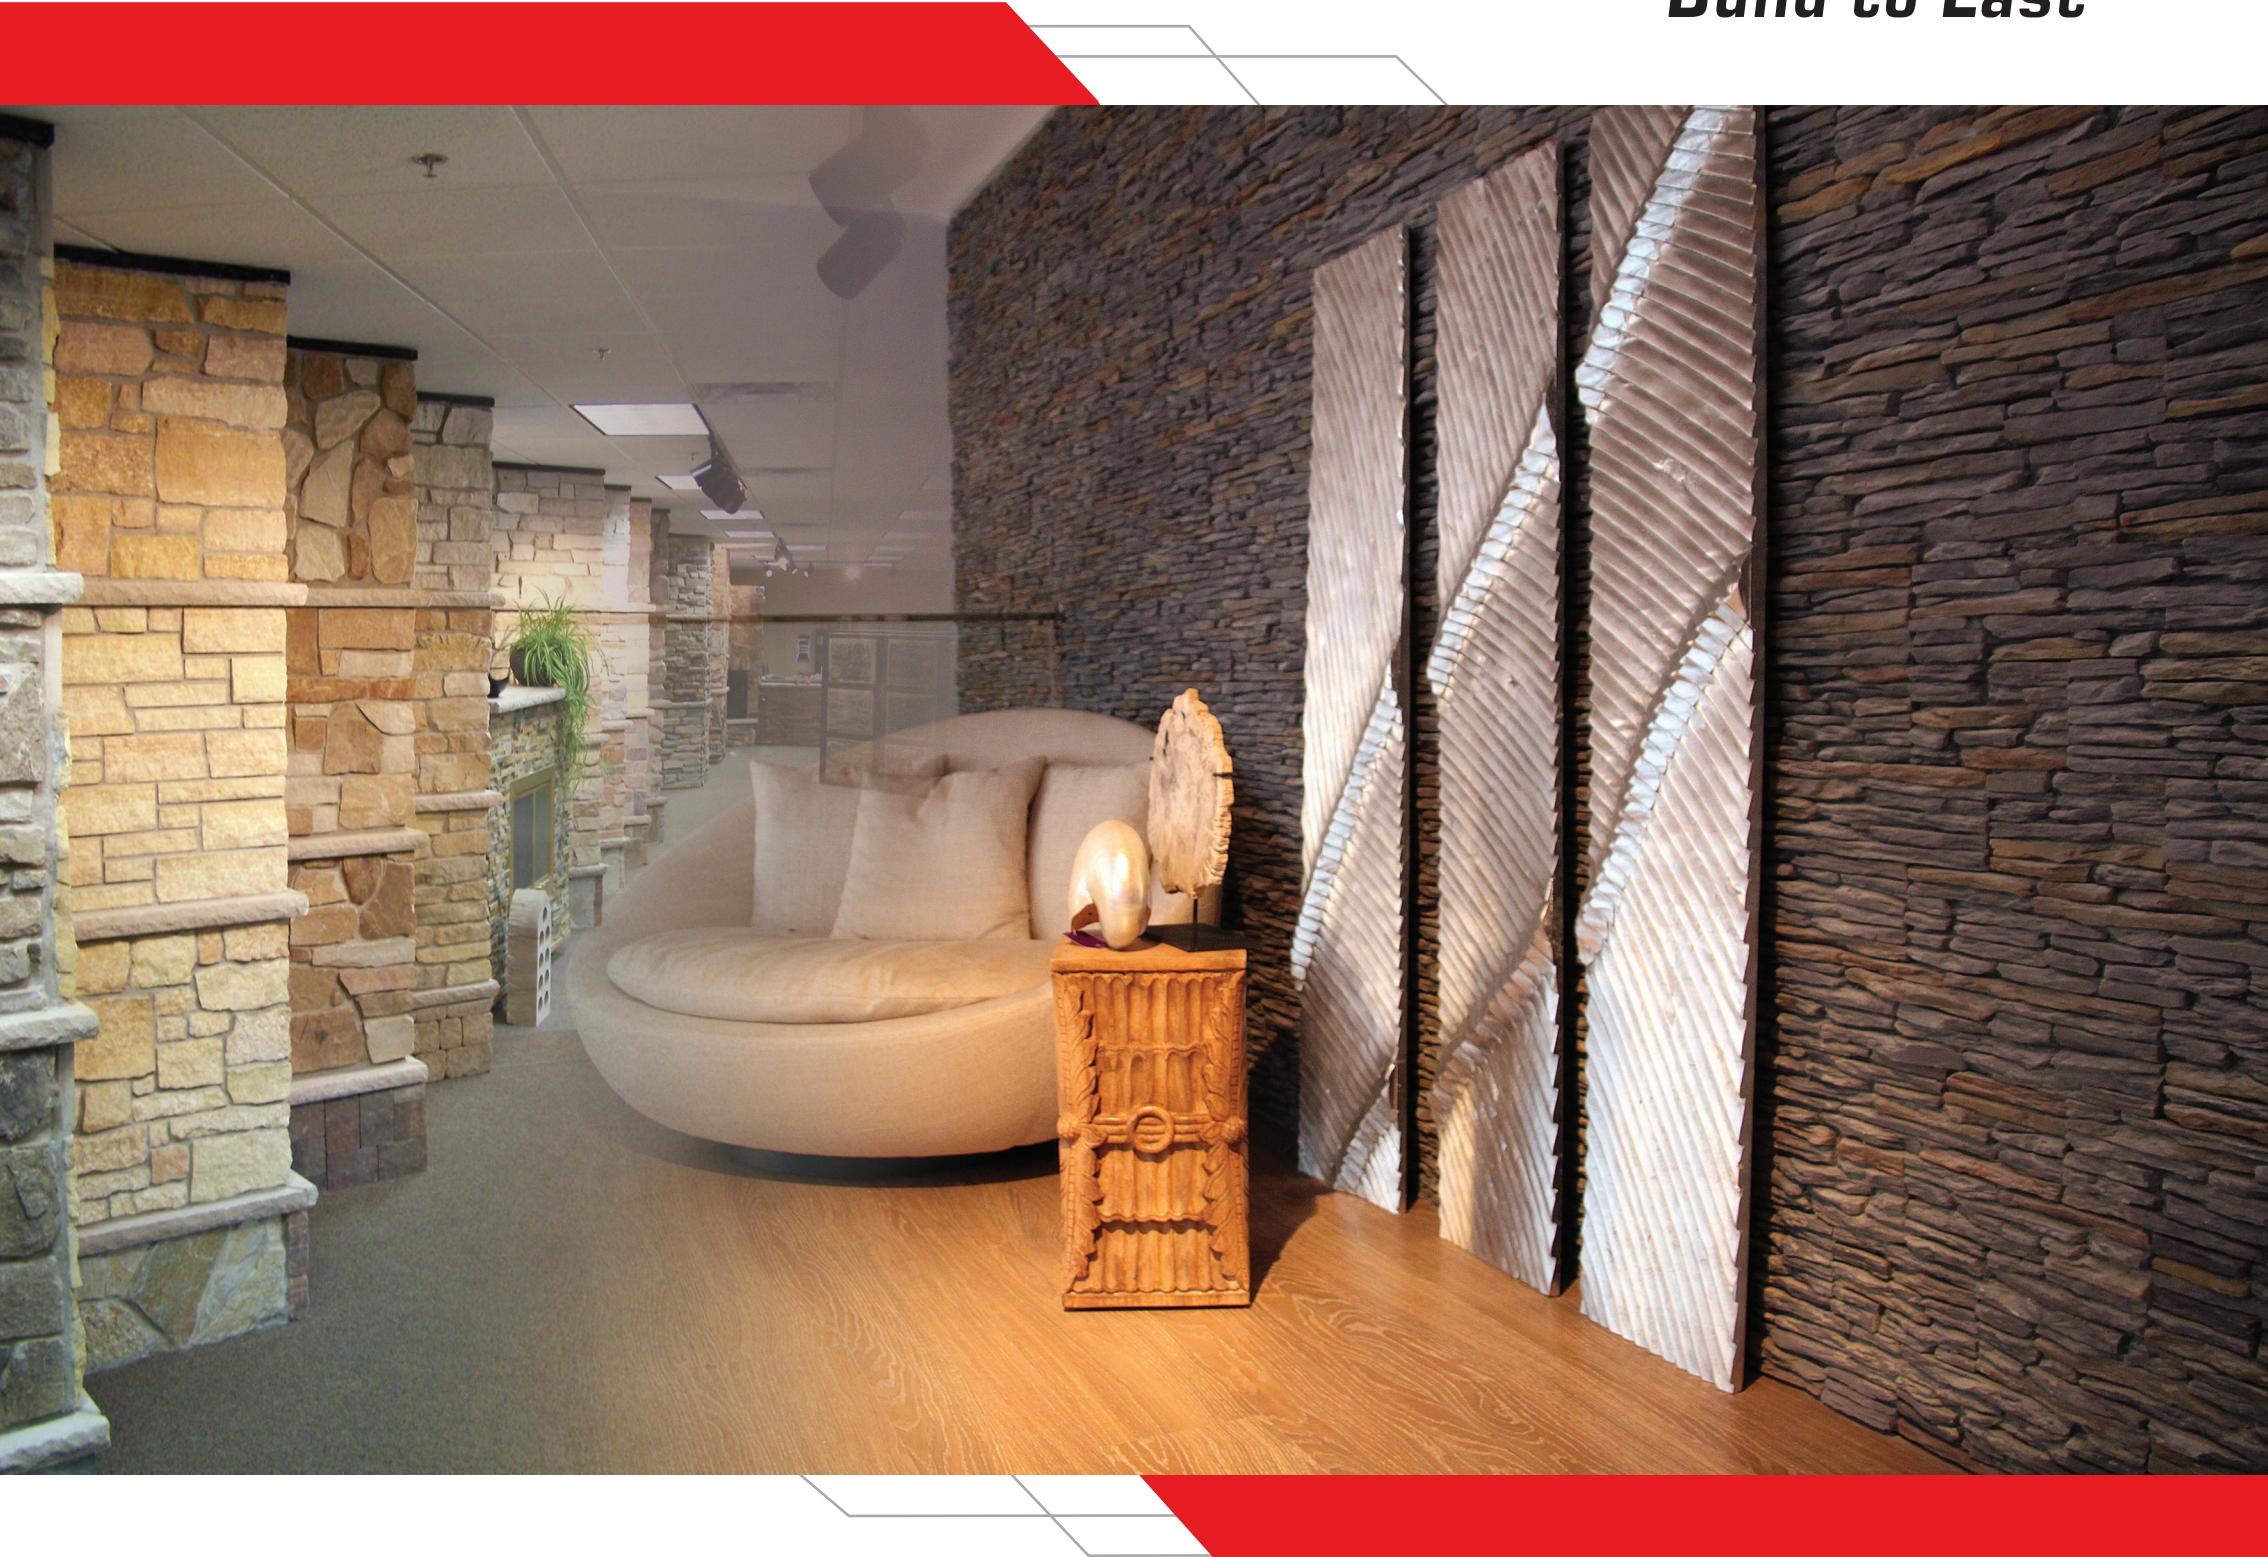

In addition RedX supports its RMC plants with Ice Plant and Chiller units adjacent to each plant.

RedX also retains 9 mobile pumps (Putzmeister) of 43 m length capacity, and have a fleet of 35 Ready-Mix transit mixer (Mercedes) trucks of 9 m³ for concrete transportation and placement.

- Piling Concrete.
- Slipform Concrete.
- PFA & Silica fume Concrete.
- Underwater Concrete.
- Mortars.
- Guniting and Shotcrete Mixes.
- All types of Screeds.

Washed Sand Products

RedX carry extensive selection of sand products which are greatly suitable for various masonry mixes. One of our ultramodern sand washing plant located in Hidd, and another hi-tech plant situated in Hafeera with an output capacity of 120 ton/hr and 210 ton/hr.

Sand Wash Treatment RO Water Treatment Plant

Sweet Water sand washing system is a globally proven technology which has been replaced traditional salt water sand washing. Sweet Water sand washing offers better quality product than traditional.

RedX has equipped with a 100,000 Gallon/day RO plant to assure genuine quality product to its clients.

- White Masonry Sand.
- Washed Masonry Sand.
- Washed Concrete Sand.
- Beach Sand.
- White Play Sand.
- Bedding Sand.
- Polymeric Sand.
- Bagged Sand.
- Sand Bags.

Concrete Kerbs & Flags

These computerized machines are well designed to produce superior quality kerbs and flags. With its three mould rotary press manufacturing and refined curing facility, RedX is competent to deliver exceptional products. Thus RedX has gained good credibility among competitors in a very short span of time.

ROAD KERBS

- 915 X 255 X 125 mm
- 915 X 255 X 150 mm

EDGE KERBS

- 916 X 150 X 50 mm

RADIUS KERBS

- 782 x255 x 125 mm with external radius in mm
500, 750, 1000, 1500.
- 915 x255 x 125 mm with external radius in mm
2000, 2500, 3000, 3500, 4000, 4500, 5000, 6000, 7500, 9000,

Crusher Products

RedX has a complete selection of crushed aggregate for use in road base layers and concrete mixes. We provide 20mm, 10mm and 5mm sizes as well as Blue/Gray Stone Dust 3/4 inch, Gabian Stone Class 1 Rip Rap 5-15 inch, #57 Pink/White Crusher Stone.

Our modern 250 ton/hour crusher plant is also situated in Hafeera and we are in the capacity to supply crusher products as per the Ministry specifications as well as customer requirements.

- 10mm and 20mm local aggregates.
- Type A and Type B sol fills.
- Road Base.
- Local Dust.
- Secondary crushing RAK aggregate.
- 0-1 mm RAK aggregate.
- 3-6 mm RAK aggregate.

Crusher Plant retains a large fleet of transit vehicles.

- 10 Nos of 15 M³ Mercedes dump trucks.
- 50 Nos of 25 M³ Mercedes tipper trailers.
